

**FOR IMMEDIATE RELEASE**

**Supporting Orang Asli Communities: Ninja Van Malaysia Solidifies its Continued Partnership with Global Peace Foundation Malaysia**

*After a successful year, Ninja Van Malaysia renews their partnership with Global Peace to uplift the lives of communities*

**KUALA LUMPUR, MALAYSIA, 23 MAY 2023** – [Ninja Van Malaysia](#), a tech-enabled express logistics company providing hassle-free delivery solutions across Southeast Asia (SEA), has announced the renewal of their partnership with [Global Peace Foundation Malaysia](#) (Global Peace) to work hand in hand towards the betterment of the Orang Asli (OA)'s livelihood in the country.

Through this partnership, Ninja Van Malaysia will play a key role by enabling greater access to resources through deliveries to the OA communities located in the outskirts of Malaysia. Over the course of their partnership in the past year, Ninja Van Malaysia has supported projects involving syntropic farming with 80 new farmers, building washrooms for 30 families, instalment of solar water pump system for water access to 200 families and also instalment of solar lights for 40 families. Ninja Van Malaysia has also accumulated over 4,000km venturing into hard-to-reach locations including Kg. Teraling, Pahang to deliver items and resources such as:

- Farming equipments (ie. pruning shears, wheelbarrow);
- Farming supplies (ie. seedlings, nursery netting);

- Renewable Energy equipment (ie. Solar water pump, solar panels, solar battery, solar Sinking systems); and
- Clean Water equipment (ie. Lifestraw water filters)

Ninja Van Malaysia and Global Peace first announced their partnership in March 2022. With the renewal of the partnership, the continued collaboration will see monthly deliveries of resources to OA communities, with new locations including the Bera district. The partnership enables Ninja Van Malaysia to continue participating and supporting OA communities through initiatives like farming and children’s learning activities.

“Access to resources is essential for individuals and communities to achieve economic and social prosperity. However, marginalised communities often face significant barriers to accessing the resources they need to thrive. We understand that these communities may be located in areas with limited infrastructure, access, and resources. This is why we are honoured to be working with Global Peace again to continue extending our delivery support all the way to Pahang, home to the largest OA community in Malaysia. The partnership was made successful through our connected network and familiarity with hard to reach areas in Malaysia. We are grateful to see our partnership contribute to the betterment of these communities' livelihood and we look forward to another fruitful year with Global Peace,” said Adzim Halim, Chief Executive Officer (CEO) of Ninja Van Malaysia

Dr. Teh Su Thye, CEO of Global Peace, shares, “We are delighted and truly appreciative of this continued partnership with Ninja Van Malaysia for our logistics needs for the Orang Asli community. Their ongoing commitment to go the extra mile in delivering goods to remote areas is truly a gift for an NGO like us, and they have done so with utmost efficiency and reliability. We highly recommend Ninja Van Malaysia for any logistics needs, especially for those who require deliveries to hard-to-reach areas. They have proven to be a valuable asset to our operations and have made a significant impact on the lives of the Orang Asli.”

The projects rolled out by Global Peace are in line with the United Nation Sustainable Development Goals 2030, aiming to facilitate intercultural cooperation, strengthen families and communities, and foster a culture of service and peace. Through logistic solutions and greater area reach, Ninja Van Malaysia is able to provide their services and resources to ensure that these communities receive the basic necessities required.
